## Intermediary Guide

Our affordability model enables us to assess current and future affordability of applicants who need to borrow beyond their planned retirement date.

### Highlights:

- We have devised a simple and effective approach to assessing applicant affordability
- Most of the demographic data we use to assess affordability is electronically obtained
- This key information allows brokers to spend less time inputting data
- We will lend up to age 80 (at the end of the term) as long as the applicant's retirement income supports the lending requested
- We will assess lending into retirement using the applicant's stated retirement age or 70, whichever is lower

### Key Criteria:

#### Income

Lending into retirement	This information will be required on all applications: <ul style="list-style-type: none"><li>• Latest annual statement of pension(s) due on retirement or recent letter from pension provider(s) confirming the pension due on retirement</li><li>• Evidence of the applicant's post-retirement income will be required. This may take the form of a pension statement</li></ul>
